New Areas Moving Forward!

Beneficiaries in our newest area, Lompre, have just begun their training and everyone is very excited!

Above you can see one of the new beneficiaries in Lompre at his personal plot.

To the right is a glimpse into fence preparations for the experiment plot in Lompre!

Below is the day small business beneficiaries received their breadfruit trees.

Upcoming Events!

Thursday, November 18th • 7:00 PM
Gathering at **Life Church in Williston, ND**

* Contact us at friendsoffosud@gmail.com to RSVP so we can assign you to a table!

IFOSuD Land: Prayer Meeting

On August 31st Josue led a prayer meeting to dedicate IFOSuD land to the Lord's business. Right now IFOSuD is preparing to build a shade house on 1.6 acres where they will grow tomatoes. This should be completed by the end of October. In the meantime they are planting about 70 grafted avocado trees. There are currently 80 grafted lime trees growing that were planted in July.

Meet a Beneficiary

Let me introduce you to Michel Erline. She is enrolled in the small business program of IFOSUD in Jérémie, Paroty. There are 4 people living in this little house. Erline stated that the IFOSUD program brought a smile and hope to her face. Her dream is to make enough money one day to build a decent home to stay with her family. She hasn't accepted Jesus Christ yet, but has in mind to do so. Gabriel, the field monitor in Jérémie, prayed with her during the discipleship visit and she was very excited! Please pray that Erline would step out in faith and accept Jesus as her Lord and Savior!

Earthquake Update

Jacqueson, Chief of IFOSuD's Livestock Sector, coordinated with a university in Morot to distribute food to beneficiaries and others in the community affected by the earthquake and tropical storm.
